LIMITATIONS

This MEDIA LICENSE expressly forbids any unauthorized inclusion of the CONTENT or new audio content derived from or based on the CONTENT or new audio content resulting from mixing the CONTENT with other audio content in whole or in part in:

1. Any library (e.g. sample instrument, sound effects library, production music as single accessible stems, etc.),
2. In any product that is primarily a sound product. Primarily, for the purposes of this agreement, is defined as containing pure sound effects using CONTENT (without voice, music) for at least 50% of the total elapsed time of the product. Examples of restricted products would be soundscape albums, sound effect collages on YouTube, ambient sound videos without narration.
3. Usage as pre-installed sounds in any physical / hardware device or toy, online or offline.
4. Usage of the CONTENT, in whole or in part, for the purpose of training, improving, or developing any Neural Networks (NN), Artificial Intelligence (AI) or Machine Learning (ML) models or algorithms, whether for commercial or non-commercial use.
5. Usage that uses the CONTENT as runtime derivative data and not as audio material (e.g. using Echorbit Audio Impulse Response recordings in a reverb plugin in a video game, or as part of a reverb plugin that you sell).
6. Any re-distribution method of the CONTENT, through any means, including but not limited to, re-selling, trading, sharing, resampling, mixing, processing, isolating, or embedding into software or hardware of any kind, for the purpose of re-recording or reproduction as part of any free or commercial library of musical and/or sound effect samples and/or articulations, or any form of musical sample or sound effect sample playback system or device.

If you create your own sound effect stems for musical purposes (e.g. trailer production music stems) using Echorbit Audio sounds, please make sure to not use Echorbit Audio sounds "in the clear", meaning unmixed with other elements. In order to achieve that, please make sure to:

1. Use multiple sound sources (not only Echorbit Audio), like some original element (e.g. a Impact)
2. Use additional musical elements (can be non-tonal, percussive only), like cymbal sweeps, whooshes, etc.
3. Mix Echorbit Audio sounds with these other sound sources in the stem mix, so that no Echorbit Audio sounds is "naked" in that stem mix. If in doubt inquire or in case you want to include our CONTENT in any such way mentioned in the LIMITATIONS, please contact us to obtain an AUDIO DEVELOPER LICENSE to our CONTENT. Upon written request that details a specific usage that may fall under these LIMITATIONS, Echorbit Audio will furnish you with a safe-harbor letter within 30 days allowing or disallowing use for the described PRODUCTION.
